## **2500 • Wisconsin Association for Environmental Education, (715) 570-2587**

Wisconsin has a proud tradition of supporting environmental education. In 1935, we became the first state to pass legislation requiring “adequate instruction in the conservation of natural resources” for certification to teach science or social studies in public schools.

Today, networks of organizations work to ensure that all communities in Wisconsin, in addition to school children, have the knowledge and skills necessary to build ecologically mindful communities. For Wisconsin residents, sustainability = civic mindedness.

The Wisconsin Association for Environmental Education is a member-based, professional community of individuals and organizations with diverse backgrounds whose goal is to promote responsible environmental action by providing a voice for and celebrating excellence in environmental education. Three pillars frame our work: Advocacy, Networking, and Recognition. Member organizations provide specific environmental education opportunities throughout the state.

You may contribute to the Wisconsin Association for Environmental Education itself or directly to the member organizations listed in this section.
